("Client")

January 23rd 2026,

DECLARATION FROM LIDAR MANUFACTURER

We, Vaisala France SAS(U), formally certify that the Client, a majority-owned affiliate of TK EKO s.r.o, has purchased a WindCube Vertical Profiler 2.1 ("Product(s)") in 2025, and has been trained to provide servicing on said Product(s), in accordance with our service offering and the details below.

In January of this year, the Client underwent L1 training on the Product(s), comprising of: day-to-day system operation, troubleshooting & installation. The following people, who are the Client's employees, have been trained and certified by Vaisala to perform those services on the Product(s), within the framework of the General Conditions of Sales and Services, and service description of Vaisala:

- Josef Tvrdek

Vaisala's initiative points towards maintaining its clients' capabilities over time and this includes provisions for enhanced training and refresher sessions that are designed to ensure the successful realization of the above-mentioned services.

As a result, the Client is qualified to perform above-mentioned services on the Product(s) it purchases.

Made for all due intent and purpose,

Matthieu BOQUET
Head of Wind Energy
